SKILLS & ABILITIES

- HTML5
- CSS3
- JAVASCRIPT
- REACTJS
- TAILWINDCSS
- TYPESCRIPT
- REDUX
- WEBPACK
- GITHUB

EDUCATION

UNIVERSITY OF ILORIN

BACHELOR OF SCIENCE

ELECTRICAL AND ELECTRONICS ENGINEERING

JUNE 2021 – TILL DATE

PROJECT

RECIPE-HUB

Integrated an existing API into a food recipe search and upload website developed using MVC architecture, HTML, CSS, JavaScript, and Webpack. Implemented functionality allowing

users to search for and upload their own recipes. Optimized load times and ensured cross-browser compatibility.

FIGMA DESIGN IMPLEMENTATION

Took a Figma design and implemented it into a responsive, cross-browser compatible website, utilizing modern web development techniques such as CSS Flexbox, Grid Layout, and CSS transitions to create a polished user experience.

SHORTLY URL

Created a friendly website that allows users to shorten their long url into shorter ones.
